EDUCATION

Prince Dr. K. Vasudevan College of Engineering & Technology	Expected 2027
B.Tech — Artificial Intelligence & Data Science CGPA: 8.7	
Chennai, Tamil Nadu	
Peniel Matriculation Higher Secondary School	2023
HSC — Higher Secondary Certificate (Computer Science) 75%	
Chennai, Tamil Nadu	
Peniel Matriculation Higher Secondary School	2021
SSLC — Secondary School Leaving Certificate 100%	
Chennai, Tamil Nadu	

INTERNSHIPS & EXPERIENCE

Software Developer Intern — Qmax	Sholinganallur
Application development & debugging in C#, SQL Server, .NET environment	
Contributed to live production systems, improving reliability and feature delivery	
Deep Learning Intern (Stipended) — Remote / Virtual	
Built CNN models to analyse rat brain images for autism-pattern detection using TensorFlow/Keras, OpenCV, Docker	
Google Developer Groups — On Campus Lead	2023–2024
GDG On Campus · Community & Developer Outreach	
Organised developer workshops, hackathons & tech sessions across campus	
Acknowledged by Kübra Zengin, Developer Relations Program Manager, Google	

PROJECTS

Company Knowledge Base Portal RAG-powered web portal centralising company docs, policies, SOPs & FAQs via an AI-driven retrieval interface. Implemented document categorisation, intelligent search, and context-aware response generation. Reduced information search time and improved accessibility to organisational resources. Python RAG HTML/CSS/JS Git	ParkIDE — Smart Parking System IoT-enabled real-time parking slot monitor using Arduino/ESP32 & sensors to guide users to free spaces. Built a live monitoring dashboard for parking availability and implemented embedded systems for automated slot status updates. Reduces congestion and inefficient space utilisation. Arduino/ESP32 IoT Sensors Embedded Web
Autism Detection via CNN Deep learning image analysis system trained on rat brain images using CNNs to classify autism-related patterns. Performed preprocessing & feature extraction, trained architectures, evaluated accuracy metrics, and managed reproducible environments with Docker for research automation. Python TensorFlow/Keras OpenCV Docker	IoT-Based DIY Ventilator Low-cost ventilator prototype using IoT & embedded systems for automated respiratory assistance. Developed air delivery control, integrated sensors for operational monitoring, and programmed embedded controllers for automation. Finalist at NIT Calicut & BIRAC innovation programs. Arduino Embedded C Servo Motors IoT
Schema-Aware Test Data Generator AI-powered web app that parses SQL DDL scripts, auto-identifies primary & foreign key relationships, and generates referentially consistent synthetic datasets. Integrated Claude Haiku & Groq APIs for intelligent column understanding; exports CSV & SQL seed files. FastAPI SQLGlot Faker Claude/Groq API	Rubik's Cube Solver 3D interactive web app built with Three.js that realistically renders, scrambles & auto-solves a Rubik's Cube. Implemented cube rotation logic, integrated solving algorithms, and created smooth animations with interactive user controls for visual problem-solving. Three.js JavaScript HTML/CSS
Library Management System Desktop app with Windows Forms UI for full CRUD on books & user records, integrated with SQL Server LocalDB. Designed intuitive interfaces for record management, developed structured database schema, and improved data handling efficiency for library operations. C# .NET WinForms SQL Server Visual Studio	Portfolio & Web Projects Designed & developed Portfolio v1 & v2, College Website & Department Website with modern UI/UX principles and responsive layouts. Created Figma prototypes, built interactive pages with frontend technologies, and deployed all projects live on Netlify with iterative usability improvements. HTML5 CSS3 JavaScript Figma Netlify

TECHNICAL SKILLS

Python / Machine Learning	●●●●●●
HTML / CSS / JavaScript	●●●●●●
SQL & Databases	●●●●●○
IoT / Arduino / Embedded	●●●●●○
Java / React / Node.js (Basic)	●●●●○●
C# / .NET	●●●●●○
Figma / UI/UX Design	●●●●●○

CERTIFICATIONS

LPO2 — IIT Madras
1-Year Certified Programme · IITM
AI for Management
NPTel Elite Certification
Gen AI Academy 2.0
Google Cloud Certification
AI Fundamentals
IBM SkillsBuild
GDSC Leader Acknowledgement
Kübra Zengin, Developer Relations Program Manager, Google

LEADERSHIP & ROLES

GDG On Campus Ambassador & Lead
2024–2027 · Led 27+ student tech projects · Acknowledged by Kübra Zengin, Developer Relations Program Manager, Google
Campus Ambassador & E-Cell Member
NSS Volunteer · Active community leadership

LEAP IIT Madras Participant
First Prize — ParkIDE Smart Parking AI System

ACHIEVEMENTS & PUBLICATIONS

- First Prize — IIT Madras LEAP (Smart Parking AI)
- Finalist — NIT Calicut Bio-medical AI DIY Ventilator
- BIRAC Fellowship Finalist — TN Startup Hackathons
- VISHWAKARMA AWARDS — 12th Rank nationally
- NPTel Elite Certified — AI for Business Management
- ECG Analyzer App — Google Hackathon
- Research Paper — "Eradicating Poverty" · ICSSR
- Research Paper — Eye Tear Diabetic Detector · YUVA/IIC
